Hello,

After trying Drupal CMS, I choosed to work with Joomla CMS.

To-do list for this new website about divination:

- 1) Community with avatars and a blog engine.
- 2) Divination boards.
- 3) Articles users could post.
- 4) Multilingual system.
- 5) Free Online tarot readings.
- 6) Free Online runes readings.
- 7) Free I-Chin.
- 8) Websites directory.

If you like divination and would like to help for translation (I have bad English), please feel free to contact me.
